

EPISODE 2: HURLING THROUGH SPACE

SKETCH & WRITE ABOUT THINGS YOU LIKED AND LEARNED FROM THE VIDEO:

TALK ABOUT IT

- > What did you **like** about and **learn** from the video? Did anything surprise you?
- > Throughout the ages, many Christians have been skeptical or distrustful of scientific discovery. Why do you think this is? What reasons do Christians give for being apprehensive about science?
- > What scientific discovery do people still struggle to believe today? Why?

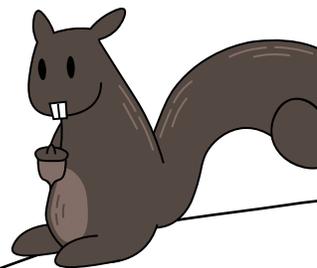

QUICK TAKE

Using an EMOJI, express your reaction to this statement:

"MANY of modern science's founders were committed Christians."

NICOLAUS
COPERNICUS
(1473-1543)

"The Universe has been wrought for us by a supremely good and orderly Creator... The strongest affection and utmost zeal should, I think, promote the studies concerned with the most beautiful objects. This is the discipline that deals with the universe's divine revolutions, the stars' motions, sizes, distances, risings and settings . . . for what is more beautiful than heaven?"

GALILEO
GALILEI
(1564 - 1642)

"God is known by nature in his works, and by doctrine in his revealed word... The Bible is not chained in every expression to conditions as strict as those which govern all physical effects; nor is God any less excellently revealed in Nature's actions than in the sacred statements of the Bible."

JOHANNES
KEPLER
(1571-1630)

"The world of nature, the world of man, the world of God—all three fit together... The chief aim of all investigations of the external world should be to discover the rational order and harmony which has been imposed on it by God and which He revealed to us in the language of mathematics."

SIR ISAAC
NEWTON
(1643-1727)

"This most beautiful system of the sun, planets, and comets, could only proceed from the counsel and dominion of an intelligent and powerful Being... This Being governs all things, not as the soul of the world, but as Lord over all; and on account of his dominion he is wont to be called Lord God "pantokrator," or "Universal Ruler."
